R. RUM 1157, 18 December 1964

1. On 29 November, the undersigned had a discussion with Identity during which he commented on his discussions recently with other Peters concerning CATIDE and CATTI matters in general. He informed Identity of ~~C/Int~~ turnover and that his section no longer is concerned with this policy matter and that it has been referred directly to CATTI for a decision re CATTI's position. Both Identity and Identity agreed that the next step in this matter was for CATTI to get together with Chief, GSP, Frankfurt.
2. Identity expressed the personal opinion that, if the present situation continues in ~~C/Int~~ utilization and exploitation, its greatest current value would be to German internal security and thus GSP, Frankfurt should have the primary responsibility for ~~C/Int~~ administration and file maintenance, however, if opportunities arise to utilize ~~C/Int~~ personality data on US stations for recruitment purposes, then CATIDE should have primary responsibility. Identity said that during his discussions with ~~C/Int~~ he inquired about ~~C/Int~~ present and future capabilities in penetrating the RSC through recruitment. Identity replied that he did not foresee any unique capabilities in this respect for some years to come. He said that upon the WDR/DR/DR affair the entire CATIDE organization is being reorganized from the ground up which meant that it would be a number of years before CATIDE could expect any operational successes in the C/Int field.
3. He agreed with Ref A that at this point we should cease proceeding CATIDE or CATIDE re ~~C/Int~~ turnover until we have formally established an agreed position with the GDR/DR/DR Intell Community.
